Talin Keshesh

Gymnast, Researcher, and Computer Science Student

I'm a Computer Science student at California State University, Northridge (B.S. expected 2026) with experience building web and mobile projects using Java, JavaScript, HTML, C, C++, Python, and PHP. I enjoy turning ideas into clean products and working in teams with clear communication and solid organization. I currently work as a researcher performing high-accuracy background checks, which has strengthened my attention to detail, confidentiality, and analytical skills. I'm also a long time gymnastics instructor, which has strengthened my leadership, patience, and ability to explain concepts clearly.

Work Experience

Gymnastics Instructor

Fun and Fit Gymnastics

2014-2025

- Coached students across multiple skill levels, emphasizing safety, technique, and confidence-building.
- Led structured classes, demonstrated skills clearly, and provided individualized feedback to support progress.
- Maintained a positive, organized environment while managing time, groups, and fast-paced class transitions.
- Communicated consistently with students and families and supported team coordination with other coaches.

Researcher

Validata

2020-Present

- Conduct background research and verification with a strong emphasis on accuracy, consistency, and confidentiality.
- Document findings clearly and follow established procedures to maintain quality standards.
- Manage multiple requests efficiently while meeting deadlines and maintaining attention to detail.

Education

College of the Canyons, 2020-2024

Associate of Arts - Animation

Associate of Science - Computer Science

I completed an **A.A. in Animation** and an **A.S. in Computer Science** at **College of the Canyons**, building a mix of creative design thinking and strong programming fundamentals.

California State University, Northridge, 2024-Present

Bachelor of Science - Computer Science - 2026

I'm currently pursuing a **B.S. in Computer Science** at **California State University, Northridge** (expected 2026), where I'm continuing to strengthen my skills through projects.
